

Zebra Workcloud Task Management™

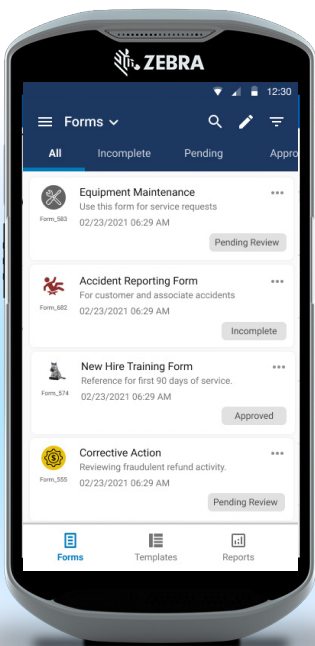

Forms

Optimize and Elevate Form Completion Procedures

With Workcloud Forms, eliminate redundancies and inefficiencies by streamlining the creation and routing of digital forms in line with best practices. Automatically escalate completed forms to the correct person or departments and track completion status in real-time to drive more efficient workflows.

Standardize Forms, Simplify Execution

Make it easy for corporate and the field to create and share digital forms. Streamline and standardize processes for improved workflows and faster response times to important issues.

Standardized Form Creation

Copy existing forms, create templates or develop new forms easily on the intuitive user interface. Automatically route new forms to designated reviewers, ensuring every location has the latest version with version control.

Easy Completion

Access all operational forms in a central database. Attach images and other supporting documents directly to the form. Reduce inaccuracies or reentries from hand-filled forms.

Faster Responses

Reduce delays caused by human error and ensure all forms are completed and correct before they're submitted. Route and escalate forms intelligently using existing data and hierarchies, guaranteeing best practice responses.
